FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 30 designated beaches throughout the Territory during the week of August 6-10, 2018. The following beaches **meet water quality standards and are safe for swimming or fishing**:

St. Croix

Cramer's Park
Shoy's
New Fort (Ft. Louise
Augusta)
Buccaneer
Chenay Bay

Halfpenny
Dorsch
Frederiksted Public Beach
Cane Bay
Pelican Cove (Cormorant)
Protestant Cay

Rainbow
Sprat Hall

St. Thomas

Magen's Bay
Secret Harbor
Brewer's Bay
Bolongo Bay

Hull Bay
Vessup Bay
Bluebeards
Coki Point
Sapphire

St. John

Frank Bay
Oppenheimer
Great Cruz Bay
Johnson Bay

The following beach **do not meet water quality standards because they exceed the established Enterococci Bacteria threshold and therefore are not considered to be safe for swimming or fishing:**

St. Thomas

Lindquist
Water Bay
Lindbergh Bay

St. John

Cruz Bay

Please Note: Samples were not collected at the following beaches:

- *Columbus Landing, Stoney Ground, Princess Condo Row and Grapetree Bay on St. Croix*
- *Frenchman's Bay on St. Thomas*

Therefore, the water quality of these beaches, is unknown.

High levels of Enterococci Bacteria and Turbidity may be caused by runoff due to heavy rains, heavy marine vessel traffic, high wave activity near the shoreline, irresponsible recreational use, etc. Runoff can consist of sediment, pesticides, animal feces and oil & grease, all of which are harmful to the waters of the Territory.

DPNR will continue to monitor these popular swimming areas. DPNR also recommends that you use your own discretion when swimming or fishing at the designated beaches. If the waters appear muddy or murky or have foul odors, do not swim or fish. For additional information regarding water quality call the Division of Environmental Protection at 773-1082 in St. Croix.
